

Pathways Program — Between Session Computer Cleanup

Run this script after every student session to reset the computer for the next student.

THIS SCRIPT AUTOMATICALLY CLEARS

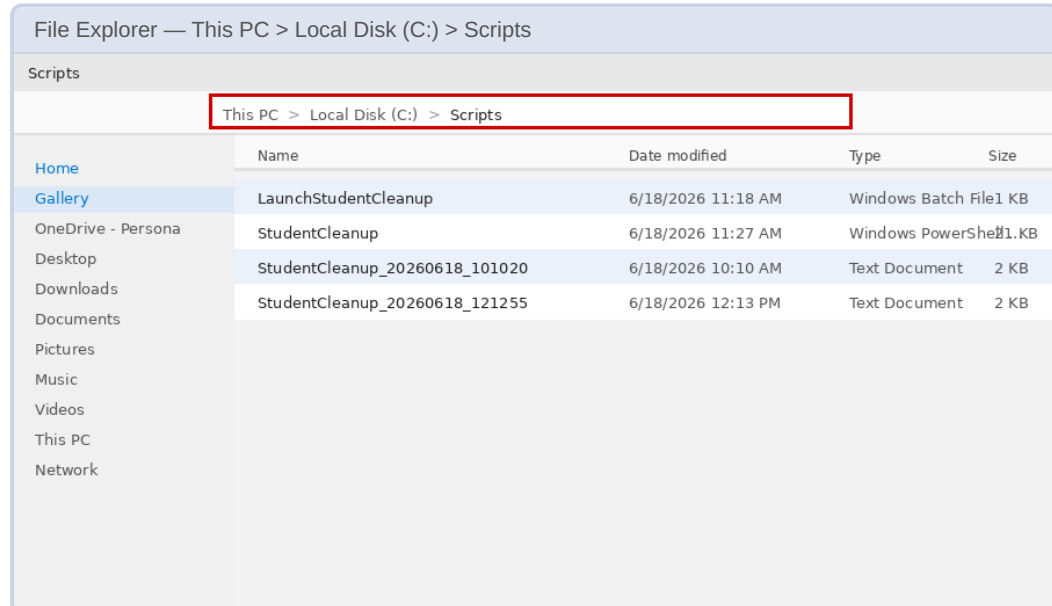

- ✓ All browsing history in Chrome & Edge
- ✓ Signed-in Google & Microsoft accounts
- ✓ Documents, Downloads, Pictures & Videos
- ✓ Recently opened files
- ✓ Saved passwords & cookies
- ✓ OneDrive, Teams & Office sign-ins
- ✓ Everything added to the Desktop
- ✓ Reconnects to ON-RAMP - Pathways WiFi

HOW TO RUN IT — 3 EASY STEPS

1

Open C:\Scripts in File Explorer

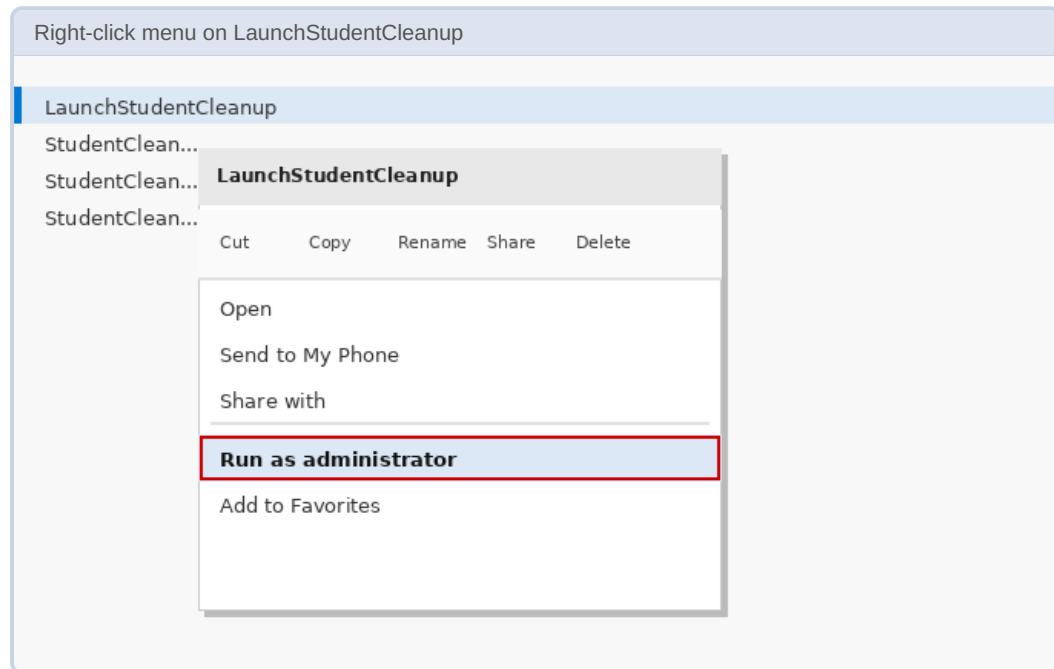

Click the folder icon on the taskbar, then navigate to **This PC** → **Local Disk (C:)** → **Scripts**. You will see **LaunchStudentCleanup** listed there.

2

Right-click LaunchStudentCleanup → "Run as administrator"

Right-click the file and choose **Run as administrator**. If a pop-up asks "Do you want to allow this app to make changes?" click **Yes**.

3

Press any key and wait

A black window will open. Press any key to start. **Do not close the window**. The script runs on its own — when it is done the computer will restart automatically.

```
Command Prompt — Student Cleanup running
CenterState CEO -- Student Cleanup

=====
CenterState CEO -- Surface Go 2 Student Cleanup
=====

This will clear all student data, reset Chrome and Edge,
and disconnect any Microsoft account from the P2A profile.

Make sure you are running as P2A (local admin).
Do not close this window until it finishes.

Press any key to continue . . .
```

You are done!

The screen will show "**Pathways Surface Wipe Complete**" and the computer will restart on its own. It will be ready for the next student once it boots back up.
